

INTRODUCING

GAITKEEPERGO

A mobility lab on your phone.

MEASURE

One video instantly transformed into detailed kinematic profile using just your iPhone.

No Mats, or Sensors

ANALYSE

Our novel AI builds a detailed spatiotemporal fingerprint e.g. scoring limb symmetry after injury or surgery to guide a return-to-sport or discharge decision.

REPORT

Every result lives in your clinic's private cloud — pull up a patient's progress history for an insurer report, referral letter, or discharge summary.
